The Examiner issued a supplemental Restriction Requirement with respect to Claims 1-14 and 23-33. In particular, the Examiner indicated that a single combination of DAPK and another gene (or genes) be elected for examination. Applicants hereby elect the combination of DAPK and Progesterone Receptor without traverse. Applicants have amended Claim 3 to recite the combination of these two genes. Applicants have also cancelled Claim 33. The elected group reads on all the claims that were the subject of the Examiner's supplemental restriction.
